

Perth 2011 ISAF Olympic Classes World Championships

FORWARD PLANNING NOTICE

THE EVENT

Every four years all of the Olympic sailing classes [ten] hold their world championships simultaneously in the year before the Games. This year all ten Olympic classes will hold their world championships over a two-week period in Fremantle [Perth] Western Australia.

The Perth 2011 ISAF Sailing World Championships will take place in Perth, Western Australia, from 3-18 December 2011 in the Olympic format over a two-week period.

The event is a pivotal moment in the buildup to London 2012 as some nations battle to qualify their teams to take part in the Games and others continue and perhaps even conclude their team selection processes.

The world's best sailors - including current, former and future World and Olympic champions - will enjoy outstanding racing conditions off the waters off Fremantle where 25 knots and bright sunshine prevail for 95% of the time at this time of year. More than 800 boats from almost all of the 94 sailing nations will take part making the championship one of the biggest on the sailing calendar.

With the World Champion crown at stake and the possibility of earning the right to represent their countries at the Olympic Games, the racing will be close, exciting, full of drama and of the highest standard. And Sunset+Vine TV News will be providing daily news coverage of the event with a programme of news feeds, unilateral content and bespoke content for the world's broadcasters with an interest in sailors in the Medal Zone in this the last major buildup to London 2012.
